SUBJECT INDEX

Activated Carbon and Aeration in the Removal of Tastes and Odors, Relative Efficiency of. By GEORGE C. BOGREN. 184, June.

Aeration in the Removal of Tastes and Odors, Relative Efficiency of Activated Carbon and. By GEORGE C. BOGREN. 184, June.

Amherst College, Amherst, Mass., the War Department Civilian Protection School at. By HENRY C. HALL. 294, Sept.

Amoskeag Mills Water System into the Manchester, N. H., City System, Cleaning, Sterilizing, and Incorporating the. By PERCY A. SHAW. 212, June.

Bacterial Contamination, Training and Organization of Technical Consultants to Deal with Chemical and. By LEON A. BRADLEY. 271, Sept.

Bacteriology at the Massachusetts Decontamination School, Instruction in Water. By JOSEPH A. MCCARTHY. 288, Sept.

Bitumastic Enamel in 1932, Flow Tests on Steel Pipe Lined with. By J. D. CARPENTER AND GEORGE M. ROADS, JR. 8, Mar.

Brooklyn, New York, Determination by Statistical Methods of the Average Service Life of 6-inch Cast-iron Water Mains in. By A. V. RUGGLES. 361, Sept.

Cast-iron Water Mains in Brooklyn, New York, Determination by Statistical Methods of the Average Service Life of 6-inch. By A. V. RUGGLES. 361, Sept.

Charges to Industrial Users, Municipal Water. By ARTHUR C. KING. 133, June.

Charleston, S. C., Edisto River, Goose Creek, Tunnel Aqueduct. By J. S. GIBSON. 102, Mar.

Chemical and Bacterial Contamination, Training and Organization of Technical Consultants to Deal with. By LEON A. BRADLEY. 271, Sept.

Chemical Contamination of Water Supplies. By LAZARUS RUBIN. 276, Sept.

Civilian Defense Program, Public Water Supply in the. By R. E. TARBETT. 221, June.

Civilian Protection School at Amherst College, Amherst, Mass., the War Department. By HENRY C. HALL. 294, Sept.

Cleaning, Sterilizing, and Incorporating the Amoskeag Mills Water System into the Manchester, N. H., City System. By PERCY A. SHAW. 212, June.

Concrete Reservoir, Lining a. By H. J. COOK. 70, Mar.

Connecticut, Coöperative Ground-Water Investigation in. By JOHN G. FERRIS. 157, June.

Conservation in New Hampshire, Water. By RICHARD S. HOLMGREN. 1, Mar.

Contamination of Water Supplies, Chemical. By LAZARUS RUBIN. 276, Sept.

Contamination, Training and Organization of Technical Consultants to Deal with Chemical and Bacterial. By LEON A. BRADLEY. 271, Sept.

Coöperative Ground Water Investigation in Connecticut. By JOHN G. FERRIS. 157, June.

Coöperative Ground Water Investigation in Massachusetts. By M. L. BRASHEARS. 152, June.

Coordinating the Fire Service. By P. C. CHARNOCK. 53, Mar.

Decontamination School, Instruction in Water Bacteriology at the Massachusetts. By JOSEPH A. MCCARTHY. 288, Sept.

Design and Construction of Preload Tanks and Domes. By ANDREW C. LINBERG. 230, June.

Determination by Statistical Methods of the Average Service Life of 6-inch Cast-iron Water Mains in Brooklyn, New York. By A. V. RUGGLES. 361, Sept.

Distribution Systems, Effect of Earthquakes on Water. By CHARLES GILMAN HYDE. 14, Mar.

Domes, Design and Construction of Preload Tanks and. By ANDREW C. LINBERG. 230, June.

Drought and Its Effect in New England, The 1941. A Symposium. 237, June.

Earthquakes on Water Distribution Systems, Effect of. By CHARLES GILMAN HYDE. 14, Mar.

Edisto River Goose Creek Tunnel Aqueduct, Charleston, S. C. By J. S. GIBSON. 102, Mar.

Effect of Earthquakes on Water Distribution Systems. By CHARLES GILMAN HYDE. 14. Mar.

Experiences of the Sanford Water District in Water Treatment. By HORACE L. CLARK. 59, Mar.

Experimental Treatment of Rancocas Creek Water for Fort Dix, N. J. By ROBERT D. MITCHELL. 76, Mar.

Experiments with Tube-Loy Pipe. By ROBERT SPURR WESTON. 174, June.

Financing Water Mains. By WILLIAM P. MELLEY. 136, June.

Fire Service, Coordinating the. By P. C. CHARNOCK. 53, Mar.

Flow Tests on Thirty-inch Steel Pipe Lined with Bitumastic Enamel in 1932 By J. D. CARPENTER AND GEORGE M. ROADS, JR. 8, Mar.

Fort Dix, N. J., Experimental Treatment of Rancocas Creek Water for. By ROBERT D. MITCHELL. 76, Mar.

Guarding Public Water Supplies. By LEWIS E. MOORE. 265, Sept.

Ground Water Investigation in Connecticut, Cooperative. By JOHN G. FERRIS. 157, June.

Ground Water Investigation in Massachusetts, Coöperative. By M. L. BRASHEARS, JR. 152, June.

Hexametaphosphate in Water Treatment, Recent Developments in the Use of. By OWEN RICE. 84, Mar.

Hill, New Hampshire—A Planned Town. By JOHN L. HAYDEN. 202, June.

Hurricane of 1938, Salt Content of Wells in Massachusetts Affected by the Tidal Wave and. By VINCENT M. HYNES. 355, Sept.

Incorporating the Amoskeag Mills Water System into the Manchester, N. H., City System, Cleaning, Sterilizing, and. By PERCY A. SHAW. 212, June.

Industrial Users, Municipal Water Charges to. By ARTHUR C. KING. 133, Mar.

Instruction in Water Bacteriology at the Massachusetts Decontamination School. By JOSEPH A. MCCARTHY. 288, Sept.

Iron and Manganese from Water, Studies in the Removal of. By EDWARD W. MOORE AND ERNEST A. SNOW, JR. 320, Sept.

Laying Submarine Pipe in Portland Harbor in Winter. By HARRY U. FULLER. 65, Mar.

Life, A Statistical Method for the Investigation of Average Service. By A. BEVERLEY BENSON. 390, Sept.

Life of 6-inch Cast-iron Water Mains in Brooklyn, New York, Determination by Statistical Methods of the Average Service. By A. V. RUGGLES. 361, Sept.

Lining a Concrete Reservoir. By H. J. COOK. 70, Mar.

Mains, Financing Water. By WILLIAM P. MELLEY. 136, June.

Mains in Brooklyn, New York, Determination by Statistical Methods of the Average Service Life of 6-inch Cast-iron Water. By A. V. RUGGLES. 361, Sept.

Manchester, N. H., City System, Cleaning, Sterilizing, and Incorporating the Amoskeag Mills Water System into the. By PERCY A. SHAW. 212, June.

Manganese from Water, Studies in the Removal of Iron and. By EDWARD W. MOORE AND ERNEST A. SNOW. 320, Sept.

Massachusetts Affected by the Tidal Wave and Hurricane of 1938, Salt Content of Wells in. By VINCENT M. HYNES. 355, Sept.

Massachusetts, Coöperative Ground-Water Investigation in. By M. L. BRASHEARS, JR. 152, June.

Massachusetts Decontamination School, Instruction in Water Bacteriology at the. By JOSEPH A. MCCARTHY. 288, Sept.

Massachusetts, Rainfall in New England, Part I, Rainfall in. By GEORGE V. WHITE. 405, Dec.

Municipal Water Charges to Industrial Users. By ARTHUR C. KING. 133, June.

New England, Part I, Rainfall in Massachusetts, Rainfall in. By GEORGE V. WHITE. 405, Dec.

New England, The 1941 Drought and Its Effect in. A Symposium. 237, June.

New England Water Works Association.

Address of President. By FRANCIS H. KINGSBURY. 402, Sept.

Administrative Reports. 503, Dec.

Dexter Brackett Memorial Medal Award. 399, Sept.

Election of Officers. 401, Dec.

Proceedings:

November and December, 1941 meetings. 123, Mar.

January and February, 1942 meetings. 129, Mar.

March, April, and May, 1942 meetings. 254, June.

Sixty-first Annual Convention. 397, Sept.

Reports of Committees. 513, Dec.

New Hampshire, Water Conservation in. By RICHARD S. HOLMGREN. 1, Mar.

Obituaries.

GEORGE FIELD MERRILL. 259, June.

ALEXANDER H. O'BRIEN. 261, June.

ABEL REYNOLDS. 262, June.

Odors, Relative Efficiency of Activated Carbon and Aeration in the Removal of Tastes and. By GEORGE C. BORGEN. 184, June.

Pipe, Experiments with Tube-Loy. By ROBERT SPURR WESTON. 174, June.

Pipe in Portland Harbor in Winter, Laying Submarine. By HARRY U. FULLER. 65, Mar.

Pipe Lined with Bitumastic Enamel in 1932, Flow Tests on Steel. By J. D. CARPENTER AND GEORGE M. ROADS, JR. 8, Mar.

Portland Harbor in Winter, Laying Submarine Pipe in. By HARRY U. FULLER. 65, Mar.

Portland Water District, War Time Problems in the. By F. J. RENY. 309, Sept.

Preload Tanks and Domes, Design and Construction of. By ANDREW C. LINBERG. 230, June.

Protection of Public Water Supplies. Abstract of Symposium by E. SHERMAN CHASE. 38, Mar.

Public Water Supplies, Guarding. By LEWIS E. MOORE. 265, Sept.

Public Water Supplies, Protection of. Abstract of Symposium by E. SHERMAN CHASE. 38, Mar.

Public Water Supply in the Civilian Defense Program. By R. E. TARBETT. 221, June.

Public Works Programming in Relation to the Post-Emergency Problem. By WILLIAM STANLEY PARKER. 192, June.

Rainfall in New England, Part I, Rainfall in Massachusetts. By GEORGE V. WHITE. 405, Dec.

Rancocas Creek Water for Fort Dix, N. J., Experimental Treatment of. By ROBERT D. MITCHELL. 76, Mar.

Recent Developments in the Use of Hexametaphosphate in Water Treatment. By OWEN RICE. 84, Mar.

Red Water—Causes and Elimination. By I. LAIRD NEWELL. 166, June.

Relative Efficiency of Activated Carbon and Aeration in the Removal of Tastes and Odors. By GEORGE C. BOGREN. 184, June.

Removal of Iron and Manganese from Water, Studies on the. By EDWARD W. MOORE AND ERNEST A. SNOW, JR. 320, Sept.

Removal of Tastes and Odors, Relative Efficiency of Activated Carbon and Aeration in the. By GEORGE C. BOGREN. 184, June.

Reservoir, Lining a Concrete. By H. J. COOK. 70, Mar.

Rockport, Mass.—The Evolution of a Small Water Works System. By E. SHERMAN CHASE AND GEORGE C. HOUSER. 335, Sept.

Sanford Water District, in Water Treatment, Experiences of the. By HORACE L. CLARK. 59, Mar.

Salt Content of Wells in Massachusetts Affected by the Tidal Wave and Hurricane of 1938. By VINCENT M. HYNES. 355, Sept.

School at Amherst College, Amherst, Mass., The War Department Civilian Protection. By HENRY C. HALL. 294, Sept.

School, Instruction in Water Bacteriology at the Massachusetts Decontamination. By JOSEPH A. MCCARTHY. 288, Sept.

Service Life, A Statistical Method for the Investigation of Average. By C. BEVERLEY BENSON. 390, Sept.

Service Life of 6-inch Cast-iron Water Mains in Brooklyn, New York, Determination by Statistical Methods of the Average. By A. V. RUGGLES. 361, Sept.

Statistical Method for the Investigation of Average Service Life, A. By C. Beverley Benson. 390, Sept.

Statistical Methods of Average Service Life of 6-inch Cast-iron Water Mains in Brooklyn, New York, Determination by. By A. V. Ruggles. 361, Sept.

Steel Pipe Lined with Bitumastic Enamel in 1932, Flow Tests on. By J. D. Carpenter and George M. Roads, Jr. 8, Mar.

Sterilizing, and Incorportaing the Amoskeag Mills Water System into the Manchester, N. H., City System, Cleaning. By Percy A. Shaw. 212, June.

Studies on the Removal of Iron and Manganese from Water. By Edward W. Moore and Ernest A. Snow, Jr. 320, Sept.

Submarine Pipe in Portland Harbor in Winter, Laying. By Harry U. Fuller 65, Mar.

Supplies, Chemical Contamination of Water. By Lazarus Rubin. 276, Sept.

Supplies, Guarding Public Water. By Lewis E. Moore. 265, Sept.

Supplies, Protection of Public Water. Abstract of Symposium by E. Sherman Chase. 38, Mar.

Supply in the Civilian Defense Program, Public Water. By R. E. Tarbett 221, June.

System, Rockport, Mass.—The Evolution of a Small Water Works. By E. Sherman Chase and George C. Houser. 335, Sept.

Tanks and Domes, Design and Construction of Preload. By Andrew C. Linberg. 230, June.

Tastes and Odors, Relative Efficiency of Activated Carbon and Aeration in the Removal of. By George C. Bogren. 184, June.

Tests on Thirty-inch Steel Pipe Lined with Bitumastic Enamel in 1932, Flow. By J. D. Carpenter and George M. Roads, Jr. 8, Mar.

Tidal Wave and Hurricane of 1938, Salt Content of Wells in Massachusetts Affected by the. By Vincent M. Hynes. 355, Sept.

Training and Organization of Technical Consultants to Deal with Chemical and Bacterial Contamination. By Leon A. Bradley. 271, Sept.

Treatment, Experiences of the Sanford Water District in Water. By Horace L. Clark. 59, Mar.

Treatment of Rancocas Creek Water for Fort Dix, N. J., Experimental. By Robert D. Mitchell. 76, Mar.

Treatment, Recent Developments in the Use of Hexametaphosphates in Water. By Owen Rice. 84, Mar.

Tube-Loy Pipe, Experiments with. By Robert Spurr Weston. 174, June.

Tunnel Aqueduct, Charleston, S. C., Edisto River, Goose Creek. By J. S. Gibson. 102, Mar.

War Department Civilian Protection School at Amherst College, Amherst, Mass., The. By Henry C. Hall. 294, Sept.

War Material, Water—A Critical. By Arthur E. Gorman. 302, Sept.

War Time Problems in the Portland Water District. By F. J. Reny. 309, Sept.

Water—A Critical War Material. By Arthur E. Gorman. 302, Sept.

Water Bacteriology at the Massachusetts Decontamination School, Instruction in. By Joseph A. McCarthy. 288, Sept.
